

PLEXAIL

PERFECT TO THE LAST PIXEL

About **Jewelry Image Retouching Services** by **Plexail**

Jewelry Image Retouching is a complex process. It involves enhancing the minutest of details by exploring the effects of colors and light, spots and scratch removal, making the stones look brighter etc. This is something which can be a tedious process for the Jewelry Brands.

Plexail serves as the one-stop outsourcing partner for all your Jewelry Photo Retouching requirements. We began our journey in Jewelry Image Editing more than 5 years ago. We take pride in serving 100+ reputed Jewelry Brands globally with quick turnaround time & affordable pricing.

An experienced team of graphic artists at Plexail use high-end photo editing techniques to clean and enhance your jewelry photos so you can use them in creating stunning images for website, social media & catalogue to impress your buyers.

Our feat in advanced Jewelry Photo Editing includes Background Removal, Diamond Enhancement, Metal Color Correction, Removing Spots & Defects, Clearing Dusts, Adding Shadows & Reflections, Adjusting Contrast & Brightness, Adding Shine & any custom editing.
